shower and tub seats

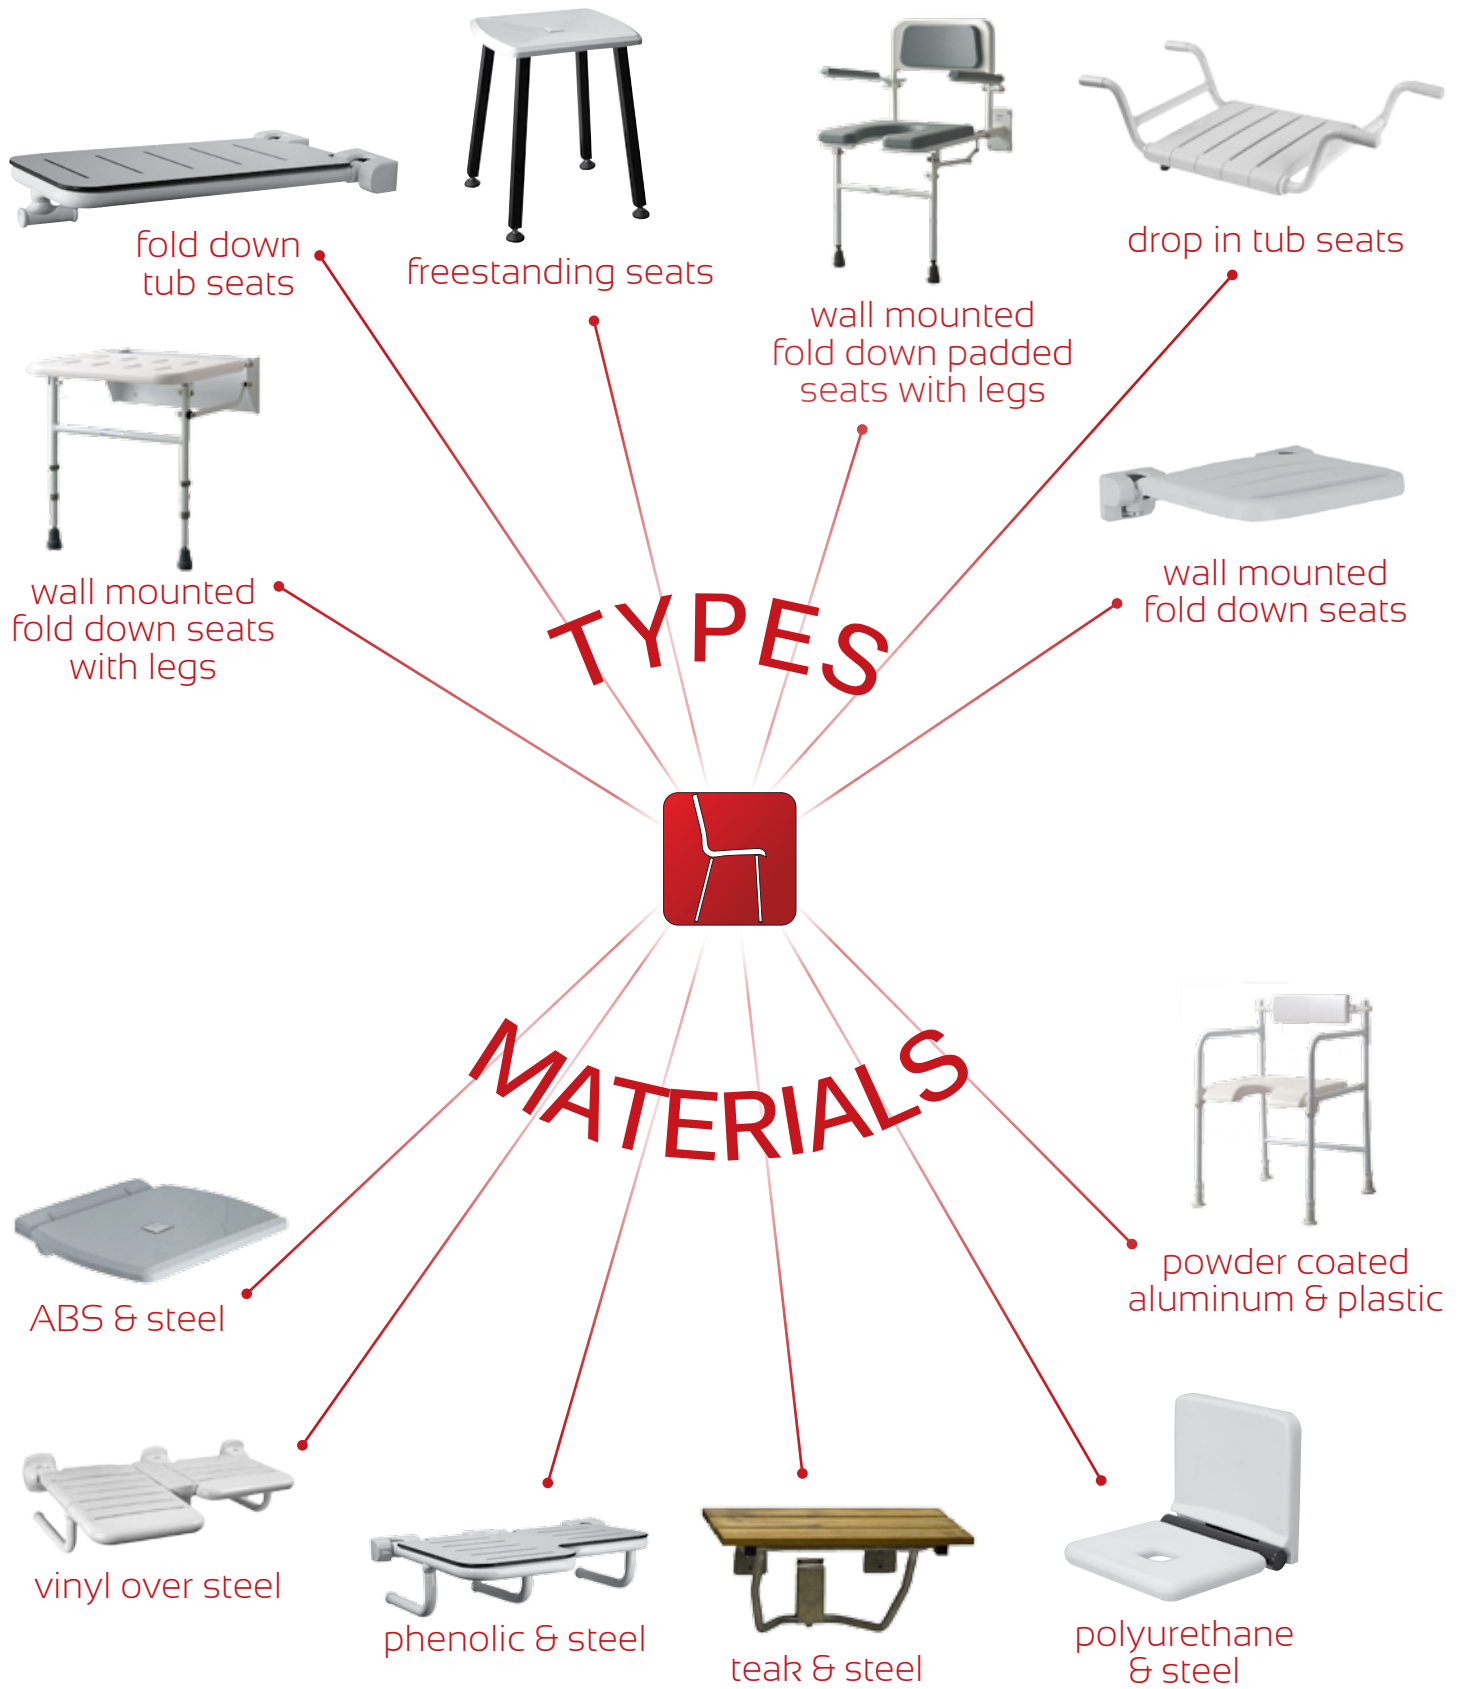

shower and tub seats

Shower seats have evolved; they are now more design oriented, socially acceptable, and mainstream. Shower seats add new components to the shower; safety, comfort, and relaxation.

They make sense for many applications: aging in place, physically challenged, and luxury. Our innovative and unique shower seats have been carefully designed following consultation with occupational therapists, end users, and installers. Our attractive product offerings are made of high quality reliable raw materials and will provide you with years of maintenance free service. Regardless of the style or function you are looking for in a seat, all Trending Accessibility seats offer a level of comfort that will help create an enjoyable bathing experience in the shower zone. Our standard series of shower seats offers value and great function while our premium seats offer the same function with a little more flair.

If you are bathing in a conventional tub, we also offer a sleek line of fold down tub seats that assist in the transfer from the bathing floor. When not needed, the tub seat folds seamlessly into the wall. These seats are hard to find, so we are glad we could offer them to you.

We offer a great variety of shower and tub seats.
